PATENT APPLICATION

AMENDMENTS TO THE CLAIMS

1 1-17. (canceled)

1 18. (currently amended) A method for playing a golf and soccer-like game,
2 comprising:

3 (a) providing in combination at least one play ball, a target ball having a generally
4 spherical construction for being kicked in a manner indicative of a soccer-like
5 game, at least one play ball, and a club having a shaft with a club head coupled to
6 the shaft for striking said play ball;

7 (b) positioning kicking said target ball a selected distance from said play ball and said
8 club to initiate game play;

9 (c) striking said play ball with said club head for moving said play ball toward said
10 target ball;

11 (d) repeating step (c) until said play ball strikes said target ball.

1 19. (canceled)

1 20. (canceled)

2 Copy of Previously Submitted Amendment

Docket 60410
Serial No. 10/700,762

PATENT APPLICATION

- 1 21. (new) The method as in claim 18 wherein:
 - 2 said target ball includes a diameter that is larger than a diameter of said play ball;
 - 3 said target ball includes a plurality of concentric regions, each concentric region including means for indicating an associated point value;
 - 4 said play ball includes a layer of fuzzy material.

- 1 22. (new) The method as in claim 18 wherein:
 - 2 said shaft includes a first shaft portion defining a longitudinal axis and a second shaft portion telescopically received in said first shaft portion and movable along said longitudinal axis, whereby to adjust the length of said shaft; and
 - 3 means on said shaft for selectively holding and releasing said first and second shaft.
